Expo

2023 Attendee Post-Show Snapshot

November 7-9, 2023

Toronto Congress Centre | Toronto, Ontario

Event Overview

Advanced Design & Manufacturing Toronto brings together six advanced manufacturing events – Design & Manufacturing, Automation Technology Expo, PACK EX, PLAST-EX, Powder & Bulk Solids, and EV Tech – under one roof.

>> Next top 20:

- | | |
|---------------------------------------|---------------------------------|
| 1. Manufacturing equipment | 11. Safety |
| 2. Labeling | 12. Sensors & detectors |
| 3. Material handling & transportation | 13. Control systems |
| 4. Flexible packaging | 14. Electric vehicle technology |
| 5. Robots & robotic accessories | 15. Engineering services |
| 6. Conveyors | 16. Plastics & polymers |
| 7. Software | 17. Component manufacturing |
| 8. Inspection | 18. Palletizing |
| 9. Machine components | 19. Protective packaging |
| 10. Case packaging | 20. Weighing systems & scales |

4 Out of 5 Exhibitors from Canada

Over 1/3 of all exhibitors **launched new products & services** in 2023

85% of exhibitors' main objective is to **meet new business contacts**

Top Exhibiting Companies:

- | | | |
|---------------------------|----------------------|-------------------------------|
| • Harpak-ULMA | • Handtmann Canada | • MarkTech |
| • CAM Packaging Solutions | • ABB Canada | • Absolute Haitian |
| • Mettler Toledo | • FANUC | • Lorenz Conveying Products |
| • Reiser Canada | • IFM Efactor Canada | • Frontline Process Solutions |
| • Multivac Canada | • Epilog Laser | • Schunk Intec Corp |

Learn from the Experts

Number of Speakers

76

Hours of Education

46 hrs across 3 days

Top Attended Sessions

- Keynote: The Road to Transforming Manufacturing in Ontario
- Keynote: The Future of Advanced Manufacturing in Canada
- Enabling Sustainable Manufacturing in Ontario Today
- Packaging Innovation Pathway to Circularity, the PIP360 Way
- Navigating Canada's EV Transition
- AI in Manufacturing
- How Foodtech Companies are Solving Manufacturing's Biggest Challenges
- Future of Plastics: The Role of the Mold Makers and Processors

Speakers from Top Attended Sessions

Rocco Rossio
President & CEO
Ontario Chamber of Commerce

John Laughlin
Chief Technology Officer
NGen

Greta Cutulenco
CEO and Co-Founder
Acerta Analytics

Raed Kadri
VP of Strategic Initiatives
OVIN & OCI

Ali Zolfagharian
Business Manager
HP

Louis Lemaire
Director of Sales, Food Service
Graphic Packaging International

Jonathan Binas
Co-Founder & CTO
Vivid Machines

Kim Thiara
President and CEO
AceTronic Industrial Controls

Leonardo Giglio
CEO
Tempo Flexible Packaging

Adithya Rao
Investment Director
Scale AI

Who Attends

Number of Attendees

4,240

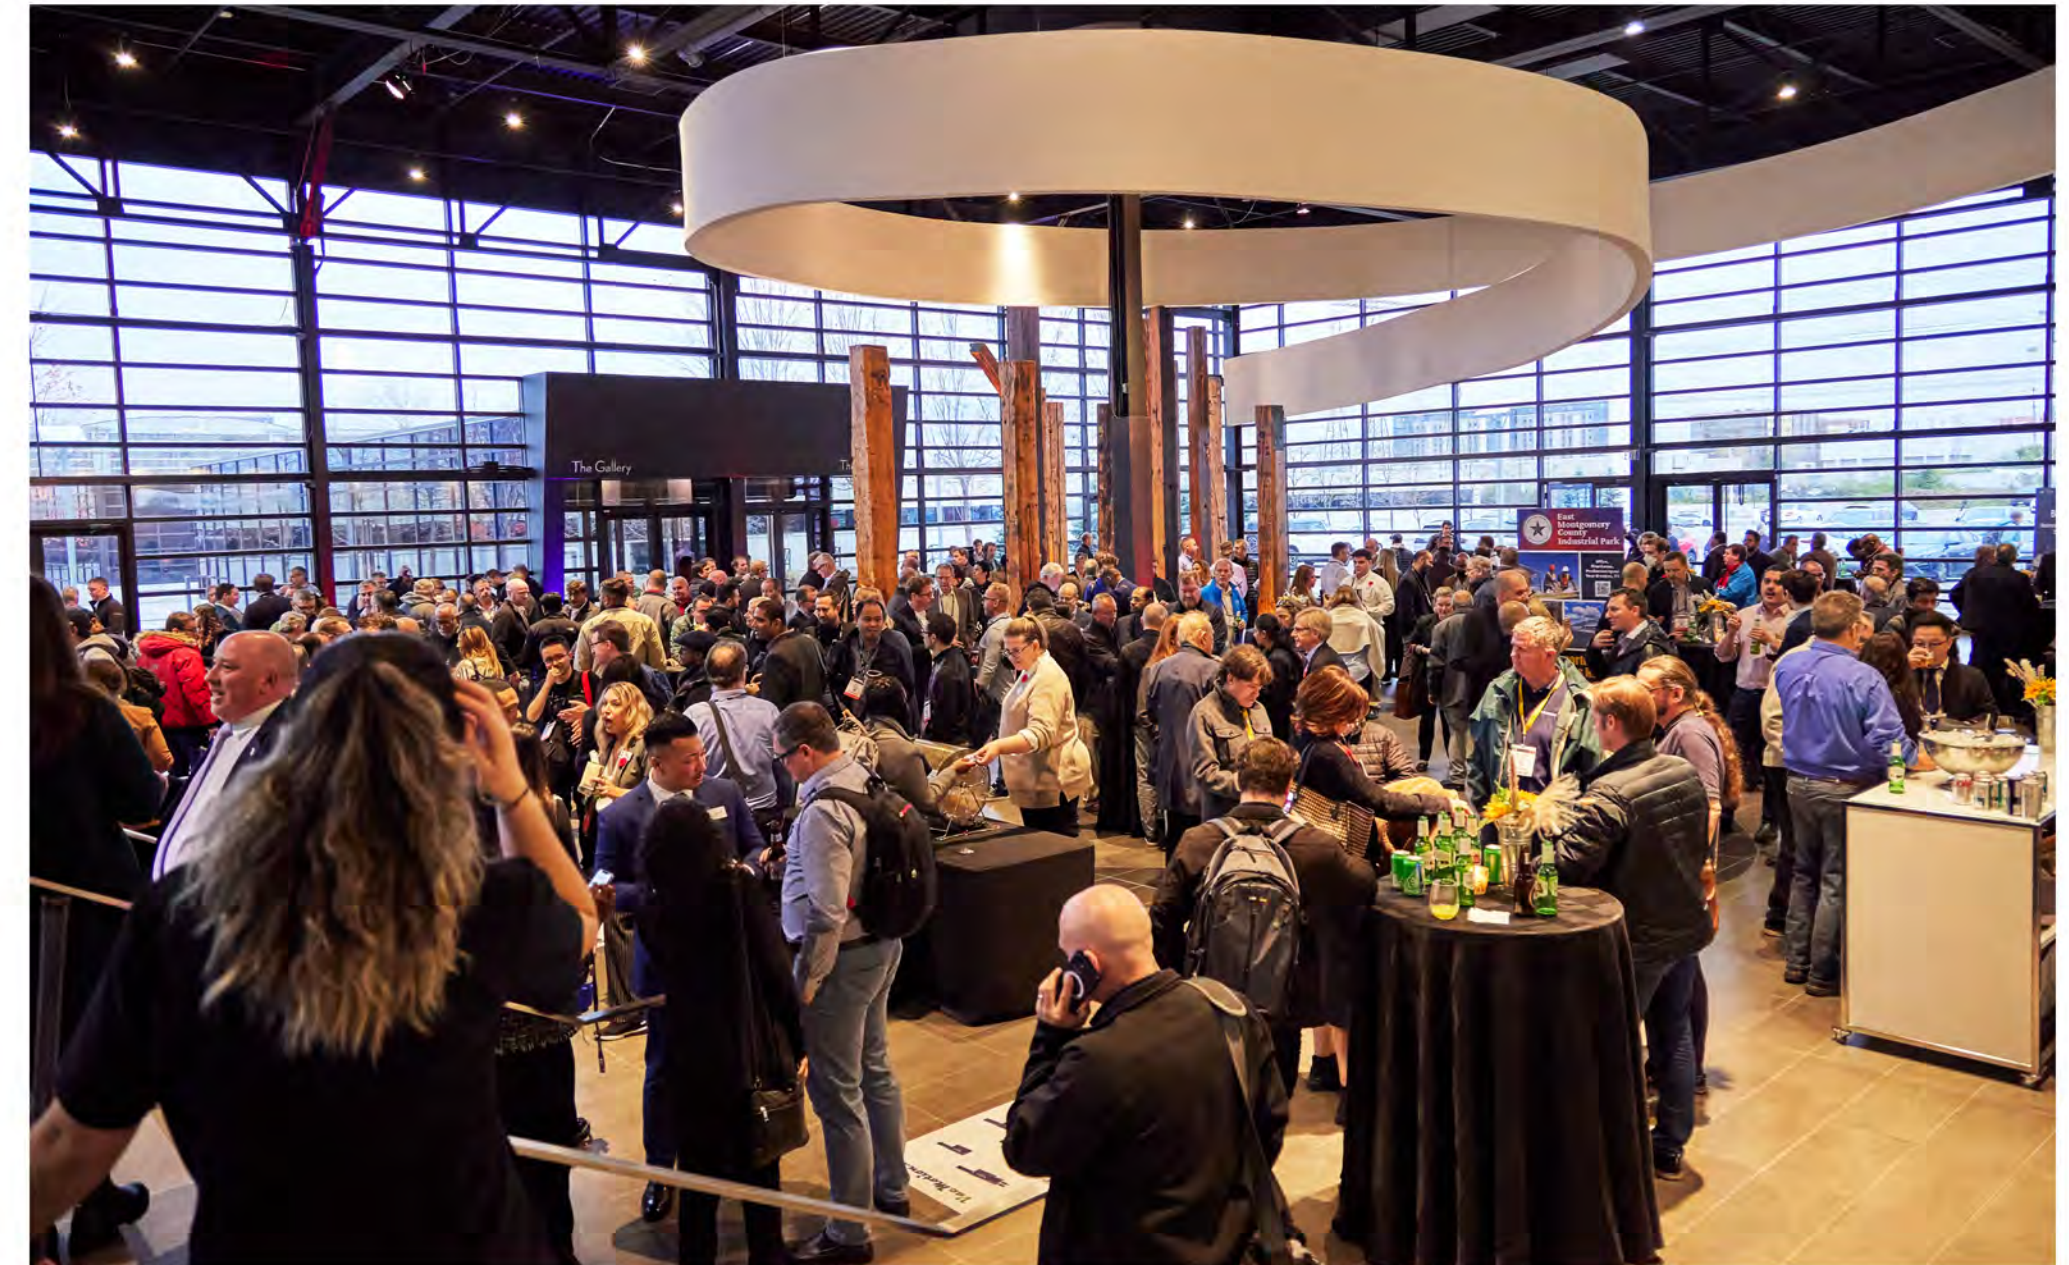

Attendee Region

91% Canadian, 4% US, 5% other
84% Ontario, 5% Quebec

Top Attendee Area of Interest

1. 3D printing
2. Additive manufacturing
3. Rapid prototyping
4. Packaging equipment/machinery
5. Manufacturing equipment
6. Robotics
7. Automation/assembly
8. Packaging design
9. Packaging materials/containers
10. Packaging services/supplies
11. Food packaging/manufacturing
12. Artificial intelligence
13. Injection molding
14. Materials – plastics/elastomers
15. Adhesives
16. Conveyors
17. Sensors
18. Labeling
19. Electronics manufacturing/assembly
20. Automation components/sensors

Who Attends

Attend alongside your peers from

3M, Baylis Medical Technologies, Boston Scientific, Cargill, Clorox Company, Fujifilm, General Mills, General Motors, Goodyear, Hershey, Honda of Canada, Magna, McDonald's, Nestle, Suzuki Motor, Tesla, Coca-Cola, Estee Lauder, Toyota Motor Manufacturing, Unilever, Walmart, Wittmann, Xerox

76% of attendees were satisfied or very satisfied with their decision to attend ADM Toronto

88% of attendees said they are likely to return for the next ADM Toronto event

Attendee Feedback

“A must to attend as it gives you insight of the new trends, equipment and suppliers in the market.”

“...tremendous value here. Especially able to talk representative face to face is totally different experience from online email communication.”

“If anyone is interested in automation, what is new in the market and learn about companies this is the best place to see all of them under one roof.”

“...connections made are like rocket fuel for the future projects.”

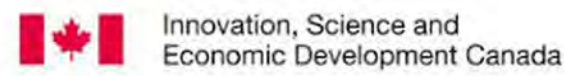

“Great opportunity to explore manufacturing and design and get better understanding of the inner works of machines and robotics.”
